While the award exceeds the State's Fair Market Value the prospects of reducing it on appeal appear slim in view of the nature of the partial taking and the difficulty in estimating the consequential damages to the remainder. Trial Counsel hesitates in recommending an appeal under these circumstances but a protective appeal has been filed to afford an opportunity to attempt a negotiated settlement prior to the jury trial at a figure somewhere between the award and the State's Fair Market Value. This is a corrected Department Action Slip correcting an error in one dated March 30, 1970, which the latter is herewith rescinded.(April 17, 1970)

The award is not excessive and since the property owner derives a rental income from the subject property which was devoted to the special use as a parking lot, experience with juries in this type of taking would indicate that in the event of an appeal a jury verdict would equal, if not exceed the amount of the award.

There is presented here the matter of the Commissioners' award in the dondemnation of property on Route 21F, Section 4, Parcel 263, in the City of Passaic owned by Franciszka Szwed and Joseph Szwed, her husband, et als.

Prior to the hearing, and after consultation with the Supervisor of the Bureau of Acquisitions, the matter was settled by the entry of a consent award in the amount of $3,000.00. Fair Market Value was registered in the amount of $2,500.00. This is a partial taking of improved property.

Approval of this consent award is recommended in view of the partial taking of the rear portion of property upon which is located a six family dwelling necessitating a conflict of testimony as to consequential damages to the remainder and on the basis that recent awards and judgments in this county reflect that had the matter been contested the ultimate award would have exceeded the amount of the settlement and also since the amount of the consent award is only slightly in excess of the State's Fair Market Value it is in the public interest.

Legal Items

Right of Way - Route 17

97 There is presented here the matter of the appeal by the State from an award of Commissioners in the amount of $40,000.00. A judgment was entered against the State in the condemnation of property on Route 17, Section 4, Parcel 110A and R110B, in the Town of Woodridge owned by The Cardin Company, et als. A judgment was entered in the amount of $55,000.00.

At the trial before a Court with a jury, the owners offered testimony in the amount of $124,700.00. The State offered testimony in the amount of $24,500.00 for the partial taking plus slope easement of an improved parcel. The Fair Market Value was registered in the amount of $12,600.00. There was a deposit paid into Court in the amount of $12,600.00 on June 14, 1967, and the Complaint was filed on the same date.

The State was represented by Fee Attorney Albert L. Levy.

It is recommended that the judgment in the amount of $55,000.00 plus interest be approved, and that payment in the sum of $42,400.00, being the amount over and above the deposit paid into Court be paid together with lawful interest at 6% from June 14, 1967 to the date of payment. There are no grounds for appeal.

This is a corrected Department Action Slip, correcting an error in Department Action Slip dated February 25, 1970, and which latter is herwith rescinded. (May 1, 1970)

98 Right of Way - Route 24

There is presented here the matter of the Commissioners' award in the condemnation of property on Route 24, Section 10, Parcel 35, in the Borough of Florham Park, owned by Joel Y. Lund, et als.

At the hearing before the Commissioners which was held on April 16,1970, an award of $600.00 was granted. Fair Market Value was re-registered on December 2, 1969 in the sum of $600.00. There was no testimony on behalf of the owners. The State's expert offered testimony in the amount of $600.00 for the partial taking of improved property. There was no deposit paid into Court. The Complaint was filed on August 29, 1969.

The State was represented by Fee Attorney Max Spinrad.

It is recommended that the award in the amount of $600.00 be approved and paid together with lawful interest as computed by the Bureau of Titles.

No appeal is recommended since the Commissioners' award is fair and reasonable; and the payment of the award is recommended as in the public interest. (April 30, 1970)

Right of Way - Route 35

99 There is presented here the matter of the appeal by the State from an award of Commissioners in the sum of $7,500.00. A consent judgment was entered against the State in the condemnation of property on Route 35, Section 8, Parcel 54, in the Township of Middletown, owned by Frank V. Marascio, et als.

Prior to the trial and after consultation with the Legal Division a consent judgment in the sum of $5,000.00 plus interest from April 20, 1970 was entered. Although the Fair Market Value was registered in the amount of $4,500.00, the State's appraisal witness indicated that he had omitted certain damages which would raise his appraisal of the Fair Market Value. This is a partial taking of improved property. There was a deposit paid into Court in the sum of $2,500.00 on October 17, 1967.

The State was represented by Fee Attorney Richard Bonello.

It is recommended that the consent judgment be approved since it reduces the Commissioners' award by $2,500.00, is fair and reasonable; and experience with juries in Monmouth County would indicate that a jury verdict would equal, if not exceed, the amount of the consent judgment and for the further reason it is in the public interest.

It is recommended that the consent judgment in the amount of $5,000.00 plus interest from date of the judgment, April 20, 1970 to date of payment, be approved and payment in the sum of $2,500.00, being the amount over and above the deposit in Court, be paid. (April 30, 1970)

Right of Way - Route 35

100 There is presented here the matter of the appeal by the State from an award of commissioners in the amount of $250 in the condemnation of property on Route 35, Section 8, Parcel 136 owned by Whitney K. Munson; et al.

Fair Market Value was registered in the amount of $250. Complaint was filed on October 17, 1967 and deposit was made into court on that same day in the amount of $150. Verdict was rendered in the sum of $200.

It is, therefore, recommended that payment be made on the verdict of $200 less the deposit of $150 leaving a balance of $50 plus interest fixed by the court in the sum of $7.25 making a total of $57.25, together with lawful interest as computed by the Bureau of Titles.(May 1, 1970)

The award was in the amount of $10,750.00.

The State was represented by Fee Attorney John A. Hila.

It is recommended that the award in the amount of $10,750.00 be appealed since it is in excess of the State's registered Fair Market Value and an appeal has been taken. (April 30, 1970)

Right of Way - Route 45

102 There is presented again the matter of the appeal from the condemnation award entered against the State for condemnation of property on Route 45, Section 1, Parcel 10 owned by Harry & Joe's, Inc.

The fair market value was registered in the sum of $27,000.00, which amount was deposited in the Superior Court Clerk's office on June 9, 1966 and withdrawn by the owner.

The Commissioners' award was in the sum of $34,000.00.

On the date of the trial on appeal, prior to the entry of expert testimony, the attorney for the owner indicated he was willing to drop the appeal if the matter could be settled for the amount of the Commissioners' award of $34,000.00.

A judgment was entered on May 20, 1968 in the sum of $7,000.00 and a Commission Action dated September 8, 1969 was approved in the amount of $7,000.00, which was the balance due over and above the deposit, which judgment was improperly worded and Title Bureau requested it be amended.

An Amended Judgment has been entered on December 5, 1969 in the sum of $34,000.00, together with interest at the rate of 6% per annum, until paid, on the sum of $7,000.00, which sum is the excess over the sum of $27,000.00 deposited into Court.

Authority is requested to approve the Amended Judgment of $34,000.00 and also the payment of the sum of $7,000.00, the balance due thereon, together with interest at the rate of 6% per annum on the sum of $7,000.00 from June 9, 1966 to date of payment, to be computed by the Title Bureau, and that the Commission Action dated September 8, 1969 be rescinded.(April 30, 1970)

Upon taking of possession, authority is requested to dispose of the sign to the road contractor by public auction or by sealed bids. (May 8, 1970)

Right of Way - Route 35

94 There is again presented the matter of a jury verdict in the sum of $35,000 on appeal from a commission award entered against the State for condemnation of property on Route 35, Section 9, Leonardville Road to Route 36, Parcel R100A, Emma H. Kahlert, et al.

The Title Bureau could not close this matter out in that part of the building on the premises had been stolen or removed prior to the date of acceptance of possession by the State and appeared to have been placed on other property of the owner or his family.

The court would not permit the State to exclude from its testimony the value for the section of the building which had been removed. Therefore, following the trial, an appeal was made by the State for court authority to offset the value of the removed section of the building.

Our Legal Division now informs us that the State's counterclaim has been tried. By court order, a Summary Judgment of "No Cause for Action" was entered in favor of the owners and the State must pay for property it did not receive.

Authority is requested to comply with the Court Order and make payment to the owners the sum of $16,000 being the amount over and above the deposit paid into Court together with lawful interest as computed by the Bureau of Titles. (May 11, 1970)

Right of Way - Route 37

95 There is presented again the matter of condemnation of property on Route 37, Section 4A, Garden State Parkway To Washington Street. Condemnation proceedings were previously authorized for Parcel R124, Baiamonte Bros., Inc. on June 6, 1968, at which time the owners would not state a demand.

Subsequently, the parcel was revised by the engineers. The parcel designation is now 2R124 + Remnant.

It is recommended that authority be granted to institute condemnation proceedings for the acquisition of Parcel 2R124 + Remnant, Baiamonte Bros., Inc. in fee simple subject to any public utilities existing in the premises. The State's re-registered Fair Market Value of $63,900 was offered to and refused by the owner who refused to state a demand.

It is further recommended that the complaint on file be amended to substitute the map and description for Parcel 2R124 + Remnant in the place and instead of those previously filed.

Inasmuch as the sum of $10,800 was previously withdrawn from the Superior Court by the owner on November 7, 1969, authority is now requested to deposit the additional sum of $53,100, making the total on deposit $63,900.

Authority is requested to dispose of the drive-in order stands, 200 L.F. of wood fence and portable freezer box to the road contractor, by public auction or by sealed bids. (May 8, 1970)

96 There is presented again the matter of condemnation of property on Route 37 Freeway, Section 1, From Route U. S. 206 To New Jersey Turnpike, Parcel 80, Horace Black and Margaret, his wife. Subsequently, an appraisal updating to the date of complaint resulted in a re-registered fair market value of $63,000. which has been offered to and refused by the owner who did not state a demand.

Authority is therefore requested to deposit an additional $6,400. with the court, which when added to the amount of $56,600. previously authorized for deposit will equal the State's re-registered fair market value. (May 8, 1970)

Right of Way - Route 70

97 There are presented report and appraisal with map and description on Route 70 (1953), Section 14, Garden State Parkway To Herbertsville Road, Parcel 11, Lake Riviera, Inc., (A N. J. Corp.).

It is recommended that authority be granted to institute condemnation proceedings for the acquisition of this parcel in fee simple, subject to any public utilities existing in the premises. The State's Registered Fair Market Value Determination of $19,000. was offered to and refused by the owner, who is unable to complete negotiations at this time.

Should, prior to the ultimate fixing of compensation, any provisions or proceedings relating to the acquisition of this property delay the Taking of Possession and use thereof by the Department of Transportation, authority is requested to then file a Declaration of Taking and to deposit with the Superior Court $19,000.

At the time that condemnation proceedings were instituted provisions were made to include in the valuation certain items belonging to various claimants to the ownership of these lands. Subsequently, it has been determined by our Legal Division that certain items located on the above property were in fact personalty and not realty.

Therefore, the Fair Market Value is currently $1,753,600. and was re-registered in that amount on April 20, 1970. Accordingly, it is recommended that the sum of $114,900. be withdrawn from the Superior Court leaving a total of $1,753,600., representing the registered Fair Market Value. (May 18, 1970)

Should, prior to the ultimate fixing of compensation, any provisions or proceedings relating to the acquisition of this property delay the Taking of Possession and use thereof by the Department of Transportation, authority is requested to then file a Declaration of Taking and to deposit with the Superior Court $33,000. (May 18, 1970)

61 There is presented the matter of an owner's housing payment on Route 21F, Section 4, Project: U-126-(18), from Route 3 to Monroe Street, Parcel 51, former owner, Julius Moskal.

In the absence of an Award, the original replacement housing bonus was computed by deducting the registered fair market value, $45,000.00 from the average probable selling price of a comparable dwelling, $50,700.00. This resulted in a replacement housing bonus of $5,700.00 but was originally registered at $5,000.00 since this is the maximum allowed by law.

A Commissioners Award was approved by the Commissioner of Transportation in the amount of $49,150.00 on May 5, 1969. Subsequently, by reason of the owners entitlement to additional benefits, a replacement housing bonus was established in the amount of $1,550.00. This amount was computed by deducting the Condemnation Award on the acquired subject parcel of $49,150.00 from the average probably selling price of a comparable dwelling in the amount of $50,700.00.

The owner complied with the State's regulations in that he purchased and occupied decent, safe and sanitary housing within a period of one year and submitted the required application for supplementary payments. The State's representative inspected the house on December 9, 1969 and certified that the replacement housing is decent, safe and sanitary.

Authority is requested to pay the replacement housing bonus in the amount of $1,550.00.

Right of Way - Route 26 Extension

63 There are presented report and appraisal with map and description on Route 26 Extension, Section 3, From Strawberry Street to Route 26 (1927) Route U.S. 1 (1953), Parcel 15, Lawrence Hose Co.

It is recommended that authority be granted to institute condemnation proceedings for the acquisition of this parcel in fee simple, subject to the easement of the Ewing-Lawrence Sewerage Authority and any public utilities existing in the premises. Owners have refused State's suggested settlement in the sum of $68,500 and demanded that State install sleeve under proposed highway at State's expense, which demand is considered excessive.

Should, prior to the ultimate fixing of compensation, any provisions or proceedings relating to the acquisition of this property delay the taking of possession and use thereof by the Department of Transportation, authority is requested to then file a declaration of taking and to deposit with the court $68,500.

Authority is requested to dispose of fencing and chlorinator house to the road contractor, by public auction, or by sealed bids. (May 18, 1970)

Right of Way - Route 29

64 There are presented report and appraisal with map and description on Route 29 (1927), Section 2A and 2D, Control Section 2889401, from Morris Avenue, Union to Rahway River, Parcel W5A and 65, Paul J. Urban and Aurelia M. Urban, h/w.

At a public auction in 1961, part of the property needed for future highway use was inadvertently included in the sale and subsequent Deed. The value is $100. Efforts to arrange a reconveyance by negotiations have been unsuccessful in that the owner's agent refused a suggested settlement of $100 and demands a land exchange which cannot be granted.

After consulting with the Legal Department, it has been deemed appropriate and in the public interest to institute condemnation proceedings to retain the property in State ownership. The matter is submitted to the Commissioner with the recommendation that condemnation proceedings for the acquisition of these parcels in fee simple subject to any public utilities existing in the premises be instituted.

Should, prior to the ultimate fixing of compensation, any provisions or proceedings relating to the acquisition of this property delay the taking of possession and use thereof by the Department of Transportation, authority is requested to then file a declaration of taking and to deposit with the court $100. (May 18, 1970)

State's offer in the amount of $250. refused and owner's agent refused to state monetary demand.

66 There is presented the matter of relocation payment for the removal of personal property on Route 33 (1953), Section 4, Mercer County Line to Smithburg Road, Parcel 48, former owner - John C. Kasalis.

Due to the nature of the move, the construction status of the project, and since the owner was notified by letter dated March 18, 1969, giving him 90 days to vacate, the owner was granted approval to perform a self-move, not to exceed the sum of $2,870. The authorization for a self-move was given pending the approval of the self-move agreement form by the deputy attorney general's office so that the road contractor would not be delayed.

It is recommended that the agreement for the self-move be approved retroactively by the Commissioner of Transportation and authority be granted to reimburse the owner, Mr. John C. Kasalis, in the amount of $2,736, for expenses incurred in the removal of personal property. (May 18, 1970)

It is recommended that authority be granted to institute condemnation proceedings for the acquisition of this parcel in fee simple, subject to any public utilities existing in the premises. The State's Registered Fair Market Value Determination of $78,000. was offered to and refused by the owner, whose demand of $250,000. is considered excessive.

Right of Way - Route 72

71 There is presented again the matter of acquisition of property on Route 72, Section 6, From Union-Stafford Township Line to Route U. S. 9. An agreement in the sum of $3,800 was approved by the Commissioner on September 15, 1966, from Emma Giberson, et als, Parcel 28.

Our Title Bureau advises that Emma Giberson, one of the heirs of Charlotte Giberson, who signed the agreement, has died. We have made an intensive search of the records and cannot locate who her heirs-at-law are. An administrator would have to be appointed for her share (1/5). Additionally, there are numerous re-imbursement agreements against former owners, Emma Giberson, Harry Giberson and Mary E. Giberson, his wife, and Oliver Giberson. These re-imbursement agreements exceed the amount of consideration.

Authority is therefore recommended to rescind the Commission Action of September 15, 1966, and that authority be granted to institute condemnation proceedings for the acquisition of this parcel in fee simple subject to any public utilities existing in the premises.

Prior to the ultimate fixing of compensation, should any provisions or proceedings relating to the acquisition of this property delay the taking of possession and use thereof by the Department of Transportation, it is recommended that a declaration of taking be filed and the State's fair market value determination of $3,800 be placed in the Superior Court.

The improvements formerly situated on the parcel were demolished some time ago by the State's contractor in performance of his contract. **(May 18, 1970)**

Right of Way - Route 75 Freeway

72 There is presented the matter of relocation payment for the removal of personal property on Route 75 Freeway, Section 2, Federal Aid Project U-211-(5), from Waverly Avenue to Thirteenth Avenue, Parcel 277 and Route 75 Freeway, Section 3, Federal Aid Project U-211-(5), from Thirteenth Avenue to Route 280, Parcel 10, former owner, Papermart, Inc.

Following notice from the State that their property would be acquired, Papermart, Inc. began construction on a new plant. Subsequently, a hold was placed on the project with resulting dual financial obligation. With specific approval of Commissioner of Transportation, Goldberg, and his Assistant, Mr. Mullen, advance acquisition was authorized and undertaken.

Representatives of the Freehold office accompanied a qualified estimator through the plant to estimate the type and quantity of the inventory and to further estimate its relocation costs.

This was the first self-move under the new procedures and required the preparation of a detailed contract. The contract was approved by the Federal Bureau of Public Roads and the Deputy Attorney General's office.

So as to relieve the hardship resulting if the owner had to close down his operations including the business financial losses as well as work loss to the employees of Papermart, arrangements were made with the officials of Papermart to accomplish the move. The move was made under the supervision of the State and was based on two estimates from reputable movers as well as the required third estimate acquired by the State.

It is recommended that the agreement for the self-move be approved by the Commissioner of Transportation and authority be granted to reimburse the owner, Papermart, Inc., in the amount of $185,000 for expenses incurred in the removal of personal property. **(May 12, 1970)**

An agreement was approved by the Assistant Commissioner, Highways, on September 17, 1969, and subsequently by reason of the owner's entitlement to additional benefits, a Replacement Housing Additive was established in the amount of $2,950. The owner complied with the State's regulations in that he purchased and occupied decent, safe and sanitary housing within a period of one year and submitted the required application for supplementary payment. The State's representative inspected the housing on April 9, 1970, and certified that the replacement housing is decent, safe and sanitary.

Authority is requested to pay the Replacement Housing Bonus in the amount of $2.950. (May 18, 1970)

Right of Way - Route 76

74 There is presented again the matter of acquisition of property on Route 76 (1953), Section 1, Federal-aid Project I-76-8-(12), From the Benjamin Franklin Bridge to Kaighn Avenue. A purchase agreement covering the conveyance of Parcel 997 owned by David McAllister and Anna Mae McAllister, his wife, was previously approved by the Commissioner on January 14, 1970 in the sum of $2,250., which included a down payment of $550.

Our Title Bureau has now advised us that the owner cannot convey clear title to this property inasmuch as there are numerous liens, judgments and encumbrances affecting this property which far exceed the consideration heretofore agreed to. Authority is, therefore, requested to institute condemnation proceedings in fee simple, subject to any public utilities existing in the premises and that the previous action of January 14, 1970 granting approval of the purchase agreement in the sum of $2,250 be rescinded. The down payment provided in said agreement was never made.

Prior to the ultimate fixing of compensation should any provisions or proceedings relating to the acquisition of this property delay the taking of possession and use thereof by the Department of Transportation, authority is requested to then file a declaration of taking and to deposit with the Court the sum of $2,250.

Upon taking of possession, authority is also requested to dispose of the improvements on the parcel to the road contractor, by public auction, or by sealed bids. (May 18, 1970)

An agreement was approved by the Assistant Commissioner, Highways, on December 22, 1969, and subsequently by reason of the owner's entitlement to additional benefits, a Replacement Housing Additive was established in the amount of $1,900. The owner complied with the State's regulations in that he purchased and occupied decent, safe and sanitary housing within a period of one year and submitted the required application for supplementary payment. The State's representative inspected the housing on April 29, 1970, and certified that the replacement housing is decent, safe and sanitary.

Authority is requested to pay the Replacement Housing Bonus in the amount of $1,900. (May 18, 1970)

76 There is presented the matter of moving cost reimbursement for the occupant, Hardboard Fabricators Corp., situated in the building located on Route 78, Section 5H, Project # I-78-5-(7), from Elizabeth Avenue to Port Avenue, Parcel 30.

The occupant, Hardboard Fabricators Corp., complying with our requirements, submitted two (2) estimates. The estimates submitted were in excess of the $5,000.00 and as a result, the State, as required, obtained a third estimate. Hardboard Fabricators Corp., by letter dated January 30, 1970, was authorized to proceed with their relocation and utilize the services of Edward B. McMahon Inc. and W. O'Neill. Said authorization was restricted to the actual cost provided it did not exceed the approved amount of $123,555.00.

Hardboard Fabricators Corp. contacted our Metropolitan District Office and advised that the services of W. O'Neill were not utilized because he was not available. The electrical services were performed by Dynamic Electric Inc. and said service was provided for $220.00 less than the original estimate.

Authority is requested to pay the amount of $123,335.00 to Hardboard Fabricators Corp. as reimbursement for their actual moving costs based upon the voucher, certification and paid bills submitted. (May 12, 1970)

Should, prior to the ultimate fixing of compensation, any provisions or proceedings relating to the acquisition of this property delay the taking of possession and use thereof by the Department of Transportation, authority is requested to then file a declaration of taking and to deposit with the court $17,650.00.

78

There is presented again the matter of condemnation of property on Route 295, Section 7, Federal-aid Project I-295-2-(45), From Crosswicks Creek to Route 33, Parcel 65, Andrew Szabo & Emma Szabo, his wife. Condemnation proceedings were authorized on July 11, 1969, at which time the owner refused the State's registered fair market value of $27,000 and demanded $30,000 which was considered excessive.

Subsequently, due to an appraisal updating to the date of complaint, the State's fair market value was re-registered in the amount of $28,500. The owner refused an offer in this amount as well as a suggested administrative settlement in the amount of $29,000 and demanded $30,000.

Authority is, therefore, requested to deposit an additional $1,500 with the Court, which when added to the authority previously granted to deposit $27,000 will equal the State's re-registered fair market value. (May 18, 1970)

Claims - Settlement

23 The Department of Transportation is carrying a claim against Ed Hackett in the amount of $151.56 arising out of an accident occurring on December 9, 1968. On the date in question the vehicle owned and operated by Ed Hackett was involved in an accident with a vehicle owned by the Department of Transportation, being operated by Henry N. Sundt. As the result of said accident the Department's vehicle was damaged and had to be repaired at a cost of $151.58.

The insurance carrier for the other vehicle involved denied liability on behalf of their assured contending contributory negligence on the part of the Department's driver. The Claims Bureau continued its efforts to recover this claim and subsequent negotiations has now resulted in the insurance carrier agreeing to reimburse the State for 50% of its claim. The accident in question occurred at the New Brunswick traffic circle and the police who investigated this mishap indicated that both vehicles were in the wrong lane for the turn they intended to take.

Giving due consideration to the circumstances involved, as well as, the cost in the event we instituted a suit to collect the full amount of our claim, we feel the best interest of the State of New Jersey would be served if we accepted the insurance company's proposed offer of settlement. It is therefore our feeling that the sum of $75.79 should be accepted in full settlement of the Department's claim and it is our recommendation and in accordance with Mr. Levine's memorandum attached hereto, and the approval of Deputy Attorney General David Biederman that it receive favorable consideration and be approved. (May 19, 1970)

Claims - Settlement

21 The Department of Transportation is carrying a claim against the Reliable Fuel Supply Company in the amount of $393.41 arising out of an accident occurring on August 26, 1969 at the Brigantine Bridge, Route 87, involving a tug and barge owned by the Reliable Fuel Supply Company, Staten Island, New York. As the result of said accident, the fender system sustained damage and had to be repaired at a cost of $393.41.

The owner of the vessel involved, advised this office that they did not feel responsible for all the damage for which they were billed. It was their contention that their vessel merely rubbed the fender system in passing through the Brigantine Bridge and took the position that the purpose of the fender system was to guide vessels through the Bridge. In order to dispose of the Department's claim, the owner's of the vessels offered the sum of $250.00 in full settlement of our claim which offer was rejected. Subsequent negotiations by the Claims Bureau has now resulted in the Tug Boat Company offering the sum of $300.00.

The offer was discussed with Mr. John Thomson, Supervisor of Bridges and Structures who feels the figure is fair and reasonable as it would undoubtedly cost the Department more than the sum of $93.41 to produce the necessary witnesses in the event of actual trial. In view of the foregoing it is therefore our recommendation and in accordance with Mr. Levine's memorandum attached, hereto, and the approval of Deputy Attorney General David Biederman, that the offer of $300.00 be accepted and receive favorable consideration and be approved. There was a deposit paid into Court in the sum of $44,000.00 on November 19, 1969 and the Complaint was filed on the same date.

The State was represented by Fee Attorney Albert L. Levy.

It is recommended that the award in the amount of $50,750.00 be approved andpayment in the sum of $6,750.00, being the amount over and above the deposit in Court, be paid together with lawful interest as computed by the Bureau of Titles.

No appeal is recommended since the Commissioners' award is fair and reasonable; not substantially in excess of the registered Fair Market Value and the payment of the award is recommended as in the public interest. **(May 26, 1970)**

142 Right of Way - Route 23

There is presented here the matter of the Judgment entered against the State in the condemnation of property on Route 23 (1953), Section 5, Parcel 29, in the Township of Jefferson, Morris County, owned by William C. Meyer; et al.

At the commission hearing, the commissioners' award was in the amount of $13,000. The State appealed.

At the jury trial the property owner testified in the sum of $27,700 and the State offered testimony in the sum of $7,000, the fair market value. On November 4, 1964 the sum of $5,000 was deposited into court and again on October 28, 1969, an additional deposit was made in the sum of $2,000.

The jury verdict is in the sum of $23,000.

Appeal from this verdict is recommended on the basis that the court constantly permitted evidence of the contractor's activities and of the State's actions during construction as well as permitting the septic question to go to the jury on a totally inadequate charge. I strongly recommend that appeal to the Appellate Division be taken on the basis of the jury verdict being against the weight of the evidence as well as on the basis of the numerous errors of law. (May 19, 1970)

143 Right of Way - Route 24

There is presented the matter of the Judgment entered against the State in the condemnation of property on Route 24, Section 9, Parcel 13A1, Township of Morris, owned by Max Raskin; et al.

At the commission hearing the commissioners' award was in the amount of $30,000. The State appealed.

At the jury trial, the owners offered testimony in the sum of $68,300. The State offered testimony in the sum of $27,600. One of the State's experts, Mr. Seymour Simon, who was not called as a witness, had appraised this property and damages at $48,100. Complaint was filed on August 30, 1965 and the sum of $27,600 was deposited into court on August 30, 1965.

The jury returned a verdict in the sum of $40,000.

It is, therefore, recommended that payment be made on the verdict of $40,000 less the deposit of $27,600, leaving a balance of $12,400 plus interest in the sum of $3,255.25, making a total of $15,655.25, as computed by the Bureau of Titles. (May 26, 1970)

111 Right of Way - Route 24

There is presented the matter of settlement in the condemnation of property on Route 24, Section 11, Parcel R40, owned by Ida S. Beffa; et al.

The above entitled matter was scheduled for commission hearing on April 23, 1970. After consultation with James V. Fair Market Value was re-registered on October 23, 1968 in the amount of $250.

It is, therefore, recommended that the settlement reached in the amount of $850., less the deposit of $250., be approved. (May 26, 1970)

There is presented the matter of settlement in the condemnation of property on Route 287, Section 10, Parcels 147A and 147B owned by John Charles Korn; et al.

The above entitled matter was scheduled for trial on January 26, 1970. After consultation with James V. Grant of Easement and Right of Way

8 This Commission Action is an indication of the intent by the Commissioner of Transportation to permit the construction of certain parking areas and foot trails adjacent to our present overlook in the Delaware Water Gap.

Governor Hughes agreed to transfer several thousand acres of land in this area to the National Park Service, U. S. Department of Interior, known as the Worthington Tract. This tract consists of 7,000 acres of land, and will be kept in its native state as much as possible, consistent with the construction of the Tocks Island Dam.

We must grant an easement to the U. S. Government because if we do not, funds that have been appropriated will expire on June 30, 1970, and revert to the Treasurer of the United States. We (Department of Transportation) do not want this to happen because the construction that has been agreed upon will increase the safety and operation of Route 80, serve the Park, and certainly be in the public interest.

Our attorney, particularly Mr. Donnelly, and Mr. Peter DeGelleke of the National Park Service have reached an agreement on how we can transfer the necessary lands to accomplish this construction from the State of New Jersey to the United States of America. Copies of the Grant of Easement (which require the Commissioner of Transportation's signature) are attached hereto,

along with a description of the land in question including a plan of what the Government intends to construct.

Although it may not be necessary, we have included a non-discriminatory clause, indicated as Appendix A, as suggested by the Bureau of Public Roads who must act on this because we are granting access to Interstate Route 80, but as indicated before, it is safer and better than the access that is now provided for people who wish to use the Appalachian Trail.

It is hereby recommended that the Commissioner of Transportation sign the Grant of Easement and Right-of-Way Document that will allow the National Park Service to proceed with this construction. At the risk of being presumptuous, there is a certain amount of urgency in getting this document executed.

Although this grants access to the Interstate Highway System, the Bureau of Public Roads has indicated that with a few changes in design that can be accomplished by a Change of Plan and agreeable to the National Park Service, the Bureau will concur in everything that we have done so far.

It is also apparent without any doubt that the Appalachian Trail is historic and should we do anything to disrupt it, we would surely be in real trouble. (June 3, 1970)

Jurisdictional Agreement
Route U.S. 1, Section 1
Board of Chosen Freeholders, Mercer

14 Approval and execution is recommended of the attached Agreement dated May 19, 1970, between the BOARD OF CHOSEN FREEHOLDERS OF THE COUNTY OF MERCER and the STATE OF NEW JERSEY covering understandings in connection with the apportionment of jurisdiction, control and maintenance relative to the State's construction of Route U.S. 1, Section 1, more particularly the construction of a turning facility at Benjamin Franklin Road and Baker's Basin Road, Lawrence Township, Mercer County. (June 2, 1970)

Utilities - Route 280, Sec. 6K/7C & 7D
Public Service Electric & Gas Company

15 Inadvertently, only a portion (in the amount of $29,400.00) of estimated relocation cost pertaining to the subject Order was submitted for Commission Action Approval, dated December 22, 1967.

The correct estimated cost amount called for in the Order is $58,255.00 (including 10% contingencies). Extra work authorized under Change Order No. 1 at an estimated cost of $6,500.00 exceeds contingencies amount set-up in the above by $1,208.00. In consequence, therefore, deficiency in funding for the above Order is in the amount of $30,063.00.

It is recommended that the additional funds of $30,063.00 be approved for reimbursement to Public Service Electric and Gas Company, which additional funds make an adjusted total cost of $59,463.00 set-up for the subject Order. (June 2, 1970)

Utilities - Route 287, Section 10 and 11C
Jersey Central Power & Light Company

16 The file heading Order authorized Jersey Central Power and Light Company to perform certain electrical facilities rearrangement work at an estimated cost of $127,000.00 (including contingencies).

Due to inadvertent ommission of a portion of temporary by-pass called for in Order and a change of plan from aerial facilities called for in Order which would not provide vertical clearance required by National Electric Safety Code, to underground facilities additional funding is required.

I recommend that the additional cost of $34,970.00 be set-up, making a revised total cost of $161,970.00 for the Order, for reimbursement to Jersey Central Power and Light Company. (June 4, 1970)

Research Project 7724
Evaluation of Curved Grider Bridge

Fiscal Year 1970 Work Program included Research Project 7724 - Evaluation of Curved Grider Bridge and it is proposed the State negotiate with "Rutgers - The State University" for the necessary research. By separate action the Construction Contract is being modified to include certain additional construction and/or procedural steps required in implementing the research.

FY1970 appropriation did include funds in Account 612-100-389 that would permit negotiation of the contract with Rutgers, whereas the FY71 appropriation does not include such an apportionment.

The proposal submitted by Rutgers for the conduct of the research has been reviewed and returned to Rutgers for recommended changes.

It is apparent that final approval of the proposal and agreement may not be finalized until after July 1, 1970. It is therefore proposed that a Commitment Order in the amount of $14,587, covering the first years work on the research be issued against appropriated FY70 funds and the funds be held for obligation in FY71. Authority is requested to discontinue condemnation proceedings previously authorized on August 19, 1969. Inasmuch as a deposit has not been made with the Superior Court, no request to withdraw is necessary. (June 1, 1970)

Right of Way - Route 35

55 There is again presented the matter of acquisition of property on Route 35 (1953), Section 6, Asbury Avenue to Eatontown. Condemnation proceedings were previously authorized on March 23, 1970 at which time the State's Suggested Settlement of $5,500. was offered to and refused by the owners whose demand of $7,500. was considered excessive.

Continued negotiations have resulted in the execution of an agreement as follows:

Parcel 90	Constantine Vafiadis and Lucille Vafiadis, h/w	Consideration	$6,000.

The parcel having been appraised, the Reviewer's Registered Fair Market Value Determination being $5,500. and the variance not being substantial, the agreement would appear to be in the public interest. It is recommended that this agreement be approved and that the condemnation proceedings previously authorized on March 23, 1970 be discontinued.

Inasmuch as a deposit has not been made with the Superior Court, no request for authority to withdraw is necessary.

Upon taking of possession, authority is requested to dispose of the two illuminated double faced plastic signs to the road contractor, by public auction, or by sealed bids.

Right of Way - Route 295

56 There is presented again the matter of acquisition of property on Route 295 (1953), Section 7, Federal-aid Project I-295-2-(45), Crosswicks Creek To Route 33. Condemnation proceedings were previously authorized on July 22, 1969, at which time the owners were demanding $26,000 or $25,000, plus retention of the shrubbery.

Continued negotiations have resulted in the execution of an agreement as follows:

Parcel 24	Victor Tomeczek & Rozalia Tomeczek, h/w	Consideration	$26,000.
		including down payment	$ 6,500.

The parcel has been appraised and the Reviewer's re-registered Fair Market Value determination is $24,300, the variance not being substantial, this agreement would appear to be in the public interest and approval is recommended. The Replacement Housing Bonus is $0.

It is recommended that condemnation proceedings previously authorized be discontinued and authority granted to pay the consideration out of available funds allocated to this project.

It is further recommended that authority be granted to dispose of the dwelling and attached garage to the road contractor, by public auction, or by sealed bids. Further authority is requested to withdraw the deposit heretofore made into the Superior Court under Declaration of Taking and to return same to the account for this project. (June 1, 1970)

Right of Way - Route 440 Freeway

57 There is presented again the matter of acquisition of property on Route 440 Freeway, Section 1, Federal-aid Project F-209-(2), From New Jersey Turnpike to Route 35. Condemnation proceedings were previously authorized for Parcels R204A and 204B on November 15, 1967 at which time the owners refused to state a demand.

Subsequently, the parcels were revised by the engineers and are now designated as Parcels 2R204A and R204B. Continued negotiations have resulted in an agreement as follows:

Parcels 2R204A & R204B	Fuqua Industries, Inc. (A Delaware Corp.)	Consideration	$710,000.
		Including the court deposit of previously withdrawn by seller	$304,300.

These parcels have been appraised and the Reviewer's re-registered fair market value determination is $658,900. The variance is not substantial considering the fact that our taking severs this large, industrial tract of land. Also, the owner is entitled to some $48,000. in interest resulting from parcel revisions by the Engineers necessitating re-appraisals after which a high estimate of value was determined. The agreement is considered reasonable and would appear to be in the public interest and approval is recommended.

It is recommended that condemnation proceedings previously authorized for Parcels R204A and 204B be discontinued.

Further authority is requested to make payment of the sum of $405,700. representing the difference between the consideration provided for in the agreement and the deposit withdrawn from Court. (June 4, 1970)

125 There is presented here the matter of the Appeal by the State from two awards of Commissioners, in the amounts of $25,000.00 and $10,000.00 respectively, in the condemnation of property on Route 15, Section 3, Parcel 56A and of property on Route 15, Section 3, Parcel 56B, in the Township of Sparta, both owned by Erwin G. 126 There is presented the matter of the award of commissioners in the condemnation of property on Route 15, Section 7, Parcel 5A1, Township of Jefferson, owned by William Knipper; et al.

Fair market value was reregistered in the sum of $16,800 and the State introduced testimony to that effect. The property owner testified to a value of $45,750 for the Knipper piece, and $14,350 for the Myers' portion.

Complaint was filed on August 3, 1967. On May 6, 1968, the sum of $16,800 was deposited into court.

Commissioners awarded $26,000 for the Knipper portion which is considered excessive. I therefore filed a protective appeal. Commissioners awarded $5,422 for the Myers' portion. It is impossible for me to say whether this figure is excessive as the appraisal ordered on the Myers' portion has not yet been completed, but I have protected the State's position by filing a protective appeal.

It is, therefore, recommended that the appeal already filed in this matter be approved. (June 4, 1970)

Right of Way - Route 13

94 There is presented again the matter of acquisition of property on Route 13 (1953), Section 1, Hollywood Boulevard to Bay Avenue. On May 22, 1970, the Commissioner approved a purchase agreement covering Parcel 49, executed by Beaton Enterprises, Incorporated, in the sum of $6,700.

The Commission Action approving this request carried a notification that a deposit in the State's registered fair market value of $6,100 had not been made in the Superior Court.

Our Title Bureau advises that the deposit of $6,100 had been achieved concurrent at the time the agreement was secured.

Therefore, authority is requested to amend the Commission Action of May 22, 1970, to permit the withdrawal from the Superior Court of the State's fair market value deposit of $6,100. (June 5, 1970)

Right of Way - Route 18 Freeway

95 There is presented again the matter of acquisition of property on Route 18 Freeway, Section 10, Federal Project F-112-(23), From Route 34 To Route 91 Freeway, James Ranson (deceased) and Matilda Ranson, h/w. Condemnation proceedings were previously authorized for Parcel 31 on July 19, 1968 at which time the State was unable to locate the owner. The Fair Market Value for this parcel was $400.

Subsequently, a map revision was required and the parcel designation is now R31. The parcel was re-appraised to include the revision and updated to date of complaint, and the Reviewer's Re-registered Fair Market Value Determination is now $1,000.

It is recommended that authority be granted to institute condemnation proceedings for the acquisition of Parcel R31 in fee simple, subject to any public utilities existing in the premises. The State is still unable to locate the owner.

It is further recommended that the complaint on file be amended to substitute the map and description for Parcel R31 in the place and instead of those previously filed.

Should, prior to the ultimate fixing of compensation, any proceedings or proceedings relating to the acquisition of this property delay the Taking of Possession and use thereof by the Department of Transportation, authority is requested to then file a Declaration of Taking and to deposit with the Superior Court $1,000. (June 8, 1970)

Right of Way - Route 18 Freeway

96 There is presented again the matter of acquisition of property on Route 18 Freeway, Section 10, Federal Project F-112-(23), From Route 34 To Route 91 Freeway. Condemnation proceedings were previously authorized for Parcel 37A on January 20, 1969, at which time the State's Registered Fair Market Value Determination of $21,850. was offered to and refused by the agent whose demand of $50,000. was considered excessive.

Subsequently a map revision was required and it was also determined to be in the public interest to acquire the remnant. The parcel designation is now R37A plus remnant, in the name of Marguerite M. Baker, Executrix of Last Will and Testament of Gertrude A. Mayberry.

It is recommended that authority be granted to institute condemnation proceedings for the acquisition of R37A plus remnant in fee simple, subject to any public utilities existing in the premises, and that the condemnation proceedings previously authorized for Parcel 37A on January 20, 1969 be rescinded. The State's Reregistered Fair Market Value of $36,700. and $1.00 for the remnant, was offered to and refused by the agent whose demand of $50,000. was considered excessive.

Should, prior to the ultimate fixing of compensation, any provisions or proceedings relating to the acquisition of this property delay the taking of possession and use thereof by the Department of Transportation, authority is requested to then file a Declaration of Taking and to deposit with the Superior Court check in the sum of $36,701. (June 8, 1970)

Right of Way - Route 18 Freeway

97 There is presented again the matter of acquisition of property on Route 18 Freeway, Section 10, Federal-aid Project F-112-(23), From Route 34 to Route 35 Freeway. A purchase agreement covering the conveyance of Parcels 67A and 67B in the sum of $4,650 from Willie Lee Johnson and Virginia Johnson, h/w, was approved by the Commissioner on May 13, 1969, which represented an administrative settlement in the sum of $250 over the State's registered fair market value of $4,400.

Our Title Bureau has now advised us that an examination of the title of this property discloses a gap in the chain of title which was created by an unrecorded deed from Helen Palmer, et vir, to Jeannette Fary, dated October 10, 1940. Numerous attempts by our Title Bureau to secure this deed have been futile.

Inasmuch as title to this property is not clear, it is recommended that authority be granted to institute condemnation proceedings for the acquisition of Parcels 67A and 67B, subject to any public utilities existing in the premises and that the commission action of May 13, 1969 be rescinded.

Prior to the ultimate fixing of compensation, should any provisions or proceedings relating to the acquisition of this property delay the taking of possession and use thereof by the Department of Transportation, authority is requested to then file a declaration of taking and to deposit with the Court the State's registered fair market value of $4,400.

Authority is also requested to dispose of the 1-story frame dwelling and frame shed to the road contractor, by public auction or by sealed bid. (June 8, 1970)

It is recommended that authority be granted to institute condemnation proceedings for the acquisition of this parcel in fee simple, subject to any public utilities existing in the premises. The owner was unable to be located.

Should, prior to the ultimate fixing of compensation, any provisions or proceedings relating to the acquisition of this property delay the taking of possession and use thereof by the Department of Transportation, authority is requested to then file a declaration of taking and to deposit with the Court $200. (June 8, 1970)

The State's Registered Fair Market Value Determination of $54,200. was offered to and refused by the owners who refused to complete negotiations at this time.

Should, prior to the ultimate fixing of compensation, any provisions or proceedings relating to the acquisition of this property delay the Taking of Possession and use thereof by the Department of Transportation, authority is requested to then file a Declaration of Taking and to deposit with the Superior Court $54,200. An agreement was approved by the Assistant Commissioner, Highways on July 9, 1969, and subsequently by reason of the owner's entitlement to additional benefits, a Replacement Housing Additive was established in the amount of $2,400. The owner complied with the State's regulations in that he purchased and occupied decent, safe and sanitary housing within a period of one year and submitted the required application for supplementary payment. The State's representative inspected the housing on May 19, 1970, and certified that the replacement housing is decent, safe and sanitary.

This parcel was appraised and the Reviewer's registered Fair Market Value Determination is $2,450. The value of the remnant is $50.

Should, prior to the ultimate fixing of compensation, any provisions or proceedings relating to the acquisition of this property delay the taking of possession and use thereof by the Department of Transportation, authority is requested to then file a declaration of taking and to deposit with the court $2,500. (June 8, 1970)

Right of Way - Route 78

It is recommended that authority be granted to institute condemnation proceedings for the acquisition of this parcel plus remnant, in fee simple, subject to any public utilities existing in the premises as the City of Newark would not convey title free and clear of all encumbrances.

This parcel was appraised and the Reviewer's registered Fair Market Value Determination is $4,680. The value of the remnant is $150.

Should, prior to the ultimate fixing of compensation, any provisions or proceedings relating to the acquisition of this property delay the taking of possession and use thereof by the Department of Transportation, authority is requested to then file a declaration of taking and to deposit with the court $4,830. Subsequent, thereto, the Title Bureau advised us that the owner is unable to convey clear Title and recommended that the property be acquired through condemnation proceedings. The owner's attorney concurs.

It is recommended that authority be granted to institute condemnation proceedings for the acquisition of Parcel R18H in fee simple, subject to any public utilities existing in the premises and authority is requested to file a Declaration of Taking and to deposit with the Superior Court the sum of $200. (A N. J. Corp.). Condemnation proceedings were previously authorized for Parcels 1, 2, 3, 4, L1B, L2B, L3B and L4B on January 28, 1969 at which time the State's Re-Registered Fair Market Value Determination of $2,300., as of complaint date, was offered to and refused by the owner whose demand of $25,000. was considered excessive.

66 There is presented again the matter of acquisition of Property on Route 76, Section 1, Federal-aid Project I-76-8-(12) from Benjamin Franklin Bridge to Kaighn Avenue. A purchase agreement covering the conveyance of Parcel 788 was approved by the Commissioner on March 3, 1967 for a consideration of $2,100. which included a down-payment of $500. and which was subsequently made to the owners of the property, William T. Morton and Dorothy L., his wife.

Our Title Bureau now advises that one of the owners, Mrs. Dorothy L. Morton, cannot be located since she is separated from her husband; and that he is believed to be living in Philadelphia. Our Title Bureau further advises that a search has indicated that there are many liens and encumbrances against this parcel which far exceed the consideration of $2,100. Our Title Bureau recommends that the Commission Action of March 3, 1967 be rescinded.

Authority is therefore requested to institute condemnation proceedings in fee simple subject to any possible utilities existing in the premises. Prior to the ultimate fixing of compensation, should any provisions or proceedings relating to the acquisition of this property delay the taking of possession and use thereof by the Department of Transportation, authority is then requested to file a Declaration of Taking and to deposit with the court the registered fair market value of $2,100.

Authority is further requested to file a suit against William T. Morton and Dorothy L., his wife, to recover the amount of the down-payment in the sum of $500. which has already been made.

Inasmuch as the dwelling situated on Parcel 788 was demolished by the contractor in the performance of his duty no further request for disposition of the improvements formerly situated on this Parcel is required. (June 18, 1970)

The occupant, Bridge Marine Sales, Inc., has complied with our requirements by submitting three estimates for our review. Since the estimates were in excess of $5,000, a fourth estimate was obtained by the State. The fourth estimate, from Garden State Storage Company, Inc. in the amount of $8,335, was the lowest estimate of the four received. The occupant was granted approval to perform a self-move not to exceed that amount, but in the absence of a formal self-move agreement. Subsequently, a self-move agreement form was executed by the occupant in accordance with our procedures.

It is recommended that the agreement for the self-move be approved retroactively by the Commissioner of the Department of Transportation and authority be granted to reimburse the occupant, Bridge Marine Sales, Inc., in the amount of $8,335. (June 18, 1970)

Parcels 13, L13B, & L13C	Marion T. Newbold and Douglas T., h/h	Consideration: $81,000.

The parcels have been re-appraised and the Reviewer's Re-registered Fair Market Value Determination is $77,500. The variance is not substantial considering the fact that legal cost should be considered as the case is over two years old and the settlement includes all claims against the State. It is recommended that this agreement be approved and that the condemnation proceedings previously authorized on May 21, 1968 be discontinued.

Inasmuch as a deposit has not been made with the Superior Court, no request for authority to withdraw is necessary (June 19, 1970)

There is again presented the matter of acquisition of property on Route 36 (1953), Section 1, Federal Project #U-111-(5), From Route 35 To Palmer Avenue. Condemnation proceedings were previously authorized on December 7, 1965 at which time the owner's demand was considered excessive. A commission hearing was held on December 18, 1969 and an award was rendered in the amount of $3,500. in which a protective appeal was taken.

Continued negotiations have resulted in the execution of an agreement as follows:

Parcels 140 & 142	Vincent J. Forgione and Catherine, h/w	Consideration $3,000.

The parcels have been appraised and the Reviewer's Registered Fair Market Value Determination is $2,100. The variance is not considered substantial, being that the State entered the property back in 1964 and also the case is over two years old in which legal cost can be considered. The agreement would appear to be in the public interest, approval is recommended and that the condemnation proceedings previously authorized on December 7, 1965 be discontinued.

Further authority is requested to withdraw the deposit of $1,300. heretofore made into the Superior Court under Declaration of Taking. (June 19, 1970)

75 Right of Way - Route 71

There is again presented the matter of acquisition of property on Route 71 (1953), Section 3, From Route 35, Brielle To Shark River Inlet. Condemnation proceedings were previously authorized on December 9, 1969 at which time the State's Suggested Settlement of $250. was offered to and refused by the owners whose demand of $600. was considered excessive.

The appraisal was updated to the date of complaint. Continued negotiations have resulted in the execution of an agreement as follows:

Parcel E47	Harold T. Hall and Edna, h/w	Consideration $375.

The parcel having been reappraised, the Reviewer's Reregistered Fair Market Value Determination being $250., and the variance not being substantial, the agreement would appear to be in the public interest. It is recommended that this agreement be approved and that the condemnation proceedings previously authorized on December 9, 1969 be discontinued.

Inasmuch as a deposit has not been made with the Superior Court, no request for authority to withdraw is necessary. (June 19, 1970)

Right of Way - Route 78

There is presented again the matter of acquisition of property on Route 78, Section 2K, Federal-aid Project I-78-2-(20), East of Clinton At Westerly End of Route 69 Interchange to Allerton Road. An agreement for Parcel 21 was previously approved in the sum of $1,500 on September 3, 1969 in the name of John D. Case and Eleanor H. Case, h/w.

Subsequently, a title search revealed that the parcel should be subdivided into Parcels 21A and 21B under different ownership from the original parcel. Negotiations were re-opened, which resulted in the execution of an agreement as follows:

Parcel 21B Richard S. Austin & Isabel L. Austin, h/w Consideration $400.

The parcel has been appraised and the Reviewer's registered Fair Market Value determination is $200. The variance not being substantial, the agreement would appear in the public interest. It is recommended that this agreement in the sum of $400 be approved and the Commission Action dated September 3, 1969 be rescinded. It is additionally recommended that the previous agreement covering Parcel 21 be declared null and void.

Right of Way - Route 287

There is presented again the matter of acquisition of property on Route 287 (1953), Section 10, Federal Aid Project I-287-2-(14), from Route 24 to Route 10, in the names of Mary Skibic, single; John Iwansik, single and Anna Matlaga and Stephen Matlaga, her husband. Condemnation proceedings were previously authorized for Parcel R126A on May 31, 1968. On July 11, 1968 a complaint was filed and a court deposit was made in the sum of $43,700.

Subsequently, the engineers revised the parcel which is now designated as Parcel 2R126A. Continued negotiations have resulted in the execution of an agreement as follows:

Parcel 2R126A	Mary Skibic, single; John Iwansik, single & Anna Matlaga & Stephen Matlaga, her husband	Consideration $46,350 including deposit withdrawn from court of $43,700

The parcel has been appraised and the Reviewer's registered Fair Market Value Determination is $46,350, and the Replacement Housing Bonus being zero, approval is recommended.

It is further recommended that condemnation proceedings previously authorized for Parcel R126A be discontinued. Further authority is requested to make payment of the sum of $2,650 representing the difference between the consideration provided for in the agreement and the deposit withdrawn from Court.

The improvements have been demolished by the contractor in the performance of his duties. (June 19, 1970)

Right of Way - Route 45

There is presented again the matter of condemnation of lands on Route 45 (1953) Section 6, From Route 77 to New Jersey Turnpike, Parcel R13, Estate of Michael Markellos (deceased). Condemnation proceedings were previously authorized February 10, 1969 since clear title could not be obtained.

Subsequently, a court order was obtained by the above owners which necessitated a revision in parcels which are now designated as Parcels R13 and R14A2 and ownership is now vested in the name of Continental Investment Company, a Delaware Corporation. The parcels have been reappraised and the new Fair Market Value determination has been re-registered in the sum of $5,800.

Negotiations were continued on this basis. Inasmuch as title is still involved, it is recommended that authority be granted to institute condemnation proceedings for Parcels R13 and R14A2 in fee simple, subject to any public utilities existing in the premises.

It is further recommended that the complaint on file be amended to substitute the map and descriptions of parcels R13 and R14A2 in the place and instead of those previously filed. Authority is requested to deposit an additional $3,350. with the Superior Court which when combined with the $2,450. already on deposit will make a total deposit of $5,800. (June 19, 1970)

79 Right of Way - Route 45

There is presented again the matter of condemnation of lands on Route 45 (1953), Section 6, From Route 77 to New Jersey Turnpike, Parcels R14A and R14B, Camden, Gloucester, and Woodbury Railway Company, a corporation of New Jersey, now defunct. Condemnation proceedings were previously authorized on January 31, 1969 due to title involvement.

Subsequently, a title search revealed that a portion of this property is now owned by Oscar C. Jenkins, et ux. The maps have been revised and the parcels are now designated as Parcels R14A1 and R14B. The parcels have been reappraised and the Fair Market Value has been re-registered in the sum of $900.

Negotiations were contined on this basis. Inasmuch as title is still involved, it is recommended that authority be granted to institute condemnation proceedings for these parcels in fee simple, subject to any public utilities existing in the premises and that the previous condemnation action covering Parcels R14A and R14B be rescinded.

Should prior to the ultimate fixing of compensation, any provisions or proceedings relating to the acquisition of this property delay the taking of possession and use thereof by the Department of Transportation, authority is requested to then file a declaration of taking and to deposit with the Court $900. (June 19, 1970)

There is presented the matter of moving cost reimbursement for the occupant, L. Shupik and Sons situated in the building located on Route 21 Freeway, Section 4, Project: U-126-(18), from Route 3 to Monroe Street, Parcel 254B.

The occupant, L. Shupik and Sons, have complied with all of our requirements and procedures. Since the estimates submitted were in excess of $5,000.00 the State obtained third estimates as required. It was determined from the estimates submitted, that those from Frank Malatesta Moving Co., Acme Glass & Store Front Inc, and Blauvelt Refrigeration were fair and reasonable.

Authority is requested to pay the amount of $5,530.00 to L. Shupik and Sons as reimbursement of their actual moving cost based upon the executed voucher, certification and paid bills submitted. (June 18, 1970)

81 Right of Way - Route 35 Freeway

There is presented again the matter of acquisition of the parcels required for the construction of Route 35 Freeway, Section 2, Project F-207-(3), From Shark River to Poplar Road, on which an agreement was secured from the Township of Neptune and approved by the Commissioner on May 5, 1967. The agreement with the Township was in the sum of $74,991, less an allowance to the State for the construction of a pedestrian overpass in the sum of $42,700. The net cash consideration was in the sum of $32,291 and covered Parcels 4, 13, 24, 26, R26A, 28B, 29, 30A, 30B, 30C, 30D, 30E, 30F, R30G, 30H, 30I, 30J, 30K, 30L, 30M, 32, 33, 34, R35, R36, 38, R40B, 41, 42, 44, 47, 49, 50, 51, 52, 53, 54, 55, 56, R57, R58, 59, 60, 61, 62, 63, R64 & 2R65B.

Subsequently, our Title Bureau advised that a tax lien certificate held by the Township of Neptune was redeemed by the lawful owner for Parcel 29 and that title to Parcel 61 is involved and may take several years to clear. Accordingly, the Township Solicitor of Neptune Township has agreed that the sum to be paid by the State of New Jersey to the Township be reduced from the net consideration of $32,291 to $31,091, and that Parcels 29 and 61 be deleted from those parcels which the Township had previously agreed to convey. The reduction from the original net consideration covers a value of $250 attributed to Parcel 29; and $950 attributed to Parcel 61, for a total value of $1,200.

It is, therefore, recommended that authority be granted to amend the Commission Action of May 5, 1967 to delete Parcels 29 and 61 therefrom; and that the net cash consideration in the sum of $32,291 be reduced to $31,091; which will permit our Title Bureau to close on the agreement as originally secured. It is agreed that the Township will deliver a deed for all other parcels mentioned therein in the sum of $31,091. (June 18, 1970)

Right of Way - Route 37 Freeway

82 There is presented again the matter of condemnation of property on Route 37 Freeway, Section 1, From Route U.S. 206 to New Jersey Turnpike, Parcels 78 and X78B, Aileen D. White, single. Subsequently, an appraisal updating to the date of complaint resulted in the State's Fair Market Value being re-registered in the amount of $19,200., which was offered to and refused by the owner who refused to state a demand.

Authority is requested to deposit an additional $3,000. with the court which when added to the amount of $16,200. previously authorized for deposit will equal the State's re-registered Fair Market Value. (June 19, 1970)

Claims - Settlement

11 **The Department of Transportation is carrying a claim against Minnema Builders, Inc. in the amount of $404.80 arising out of an accident occurring during the month of July 1966 (exact date unknown), involving the contractor's equipment.**

Sometime prior to July 1966 the above named contractor during the course of excavating to eliminate a driveway, pulled up a loop detector causing damage to underground conduit serving traffic signal equipment, property of the New Jersey Department of Transportation. All efforts to collect this claim proved unsuccessful. Suit was instituted by the Claims Bureau in the Bergen County District Court and prior to trial the attorney representing the contractor offered to settle the State's claim for the sum of $303.60. This figure represents 75% of the State's claim.

The Deputy handling the State's claim was apprehensive to actually try the case, inasmuch as, his witness was unable to recall with any degree of certainty the name of the contractor's equipment he saw at the scene where the alleged accident occurred. In the event we tried this case in order to recover the full amount of the claim, it would undoubtedly cost the State as much as the amount we were requested to waive to try and produce the necessary witnesses at the trial.

Giving due consideration to all the circumstances involved, we feel the offer of settlement is fair and reasonable and it is our recommendation and in accordance with Mr. Levine's memorandum attached, hereto, and the approval of Deputy Attorney General David A. Biederman that the sum of $303.60 be accepted in full settlement of the State's claim and the balance amounting to $101.20 be cancelled. (June 29, 1970)

Claims - Settlement

12 The Department of Transportation is carrying a claim against Kurt Sonntag in the amount of $129.54 arising out of an accident occurring on April 14, 1968 involving a vehicle owned and operated by Kurt Sonntag, RD 2, Bangor, Pennsylvania. On the date in question the above named vehicle struck and damaged guard rail, property of the Department of Transportation which had to be repaired at a cost of $129.54.

I am attaching, hereto, our attorney's memorandum dated May 19, 1970 in connection with a proposed offer of settlement in the amount of $50.00 which memorandum is self-explanatory.

Giving due consideration to the circumstances involved in this case, it is our recommendation and in accordance with Mr. Levine's memorandum attached, hereto, and the approval of Deputy Attorney General David A. Biederman that the offer of $50.00 receive favorable consideration and be approved. (June 29, 1970)

Claims - Settlement

13 The New Jersey Department of Transportation is carrying a claim against the United States Trucking Corp. and William P. Rondi in the amount of $381.46 arising out of an accident occurring on March 25, 1968 involving a vehicle owned by the United States Trucking Corp., being operated by William P. Rondi. As the result of said accident, traffic signal equipment located at the intersection of US 1 & 9 and Manhattan Avenue, Jersey City, New Jersey was damaged and had to be repaired at a cost of $381.46.

The debtor being self-insured offered the sum of $225.86 contending that their vehicle was cut-off by an unidentified vehicle and their driver in attempting to avoid a collision with the phantom car pulled to the right and struck the traffic signal equipment. This offer was rejected by the Claims Bureau and inasmuch as we were unable to negotiate a more favorable settlement, the Claims Bureau instituted a District Court action against the owner and operator of the vehicle involved.

In preparation for trial we ascertained that the sum of $29.82 could be allowed on this claim as a depreciation and salvage item, whereby reducing the State's claim against the United States Trucking Corp. to $351.64. Prior to trial we received a call from the United States Trucking Corp. offering to settle our claim for $250.00. After much discussion it was agreed to accept $275.00 in full settlement of this claim which was accepted by the debtor.

After deducting the salvage and depreciation item from the amount of our original claim, plus the offer of settlement, the State is actually waiving the sum of $76.64. In order to bring the necessary witnesses into Court to obtain a judgment for the full amount, it would undoubtedly cost the State more than the sum we are waiving. It is therefore our recommendation and in accordance with Mr. Levine's memorandum attached, hereto, and the approval of Deputy Attorney General David A. Beiderman that the offer of settlement in the amount of $275.00 receive favorable consideration and be approved. (June 29, 1970)

Route 78, Section 3H
Rt. 78 E.B. Over Ramp "A"

20 This office has been "negotiating" with American Bridge, Division of U. S. Steel, to perform remedial work for the crack in the fractured girder recently uncovered for the Route 78 eastbound over Ramp "A" which was constructed under our Route 287, Section 5A & 6B project. The original price quoted ($15,000) has now been set at a lump sum of $2,500.

It does appear advantageous, due to the conditions of the structure, as well as the time that could be consumed in attempting to reduce the cost further, to delay activating the undertaking of the work. It is, therefore, recommended that the sum of $2,500 be appropriated. The amount, incidentally, does permit construction work without bid procedures.

This matter has been discussed with Assistant Commissioner Mullen who has authorized the Director of Design to relay acceptance of the costs to American Bridge. **(June 24, 1970)**

There is presented here the matter of the appeal by the property owner from an award of Commissioners in the amount of $4,533.00. A judgment was entered against the State in the condemnation of property on Route 80, Section 1D, Parcel 20 and X20B, in the Township of Knowlton, owned by Warren K. Lehr, et ux, et al. The judgment was entered in the sum of $28,350.00.

As a result of the State's filing of notice of motion to set aside the jury verdict and before the Court's decision thereon, and after consultation with the Right of Way Division and with the Legal Section, and with the consent of the defendant, the jury verdict was set aside and a consent judgment was entered into for the lump sum of $21,500.00 to include all accrued interest provided the defendants receive the proceeds of the consent judgment on or before June 26, 1970, now extended to July 10, 1970 by mutual consent. There was a deposit paid into Court in the amount of $2,700.00 on September 12, 1968.

The State was represented by Fee Attorney Gary M. Schwartz.

Approval of this consent judgment is recommended for the following reasons: the Judge expressed an opinion at the motion that he felt the property was worth between $20,000.00 and $22,000.00, that he might decide to dismiss the State's motion; that the settlement reduces the jury verdict by approximately $10,000.00, if the jury verdict were to be paid with interest; that, from a legal standpoint, there being no grounds for appeal this consent judgment is in the best interest of the State: that,therefore, the deposit be withdrawn and defendants be paid the lump sum of $21,500.00, to include all accrued interest within the time limit above ordered. **(June 23, 1970)**

The State's Registered Fair Market Value of $500 was offered to the owners who have refused to complete negotiations.

Should, prior to the ultimate fixing of compensation, any provisions or proceedings relating to the acquisition of this property delay the taking of possession and use thereof by the Department of Transportation, authority is requested to then file a Declaration of Taking and to deposit with the court $500.

108 ✓ **Right of Way - Route 440 Freeway**

There is presented again the matter of acquisition of property on Route 440 Freeway, Section 1, Parcels 2R248A & R248B, in the Township of Woodbridge, owned by the Chalso Company, a Corporation of New Jersey, et al.

On June 12, 1970, the Commissioner approved the entry of a Consent Award in the sum of $730,300 with certain conditions attendant thereto, which action was prepared by the Legal Division.

Inadvertently, the Legal Division's action did not request authority to rescind the agreement previously executed by this company on February 19, 1970, which was approved by action dated March 18, 1970.

Authority is, therefore, requested to rescind the action of March 18, 1970 and to make payment of this Consent Award in the manner indicated by action of June 12, 1970.

It is recommended that authority be granted to institute condemnation proceedings for the acquisition of Parcel 107A, Joseph Pellegrino, (Sr.), Widower, in fee simple, subject to any public utilities existing in the premises. The State's Re-Registered Fair Market Value of $6,050 for Parcel 107A was offered to and refused by the owner whose demand of $15,000 is considered excessive.

It is further recommended that the complaint on file be amended to substitute the map and description for Parcel 107A in the place and instead of those previously filed.

Inasmuch as the sum of $3,300 was previously deposited in the Superior Court for Parcel 107, authority is now requested to deposit the additional sum of $2,750 making the total on deposit $6,050.

As a result of a Court order a reappraisal is now required because of a change in topographical features on the remainder to include more land and the dwelling and also a change of ownership.

Hansen Appraisal Service made the appraisals on this contract through a subsidiary, Appraisal Consultants, Inc. Hansen Appraisal Service later transferred its interests to the subsidiary and all work on this contract is now being performed by Appraisal Consultants.

(July 6, 1970)

116 **Right of Way - Route 24**

There is again presented the matter of the Judgment entered against the State in the condemnation of property on Route 24, Section 9, Parcel 13A1, Township of Morris, owned by Max Raskin.

✓**Right of Way - Route 38**

118 There is presented again the matter of the condemnation action instituted to acquire property situate on Route 38, Section 1, Parcel 22A, owned by Michael J. Piarulli; et al.

The fair market value was registered in the sum of $2,100, which sum was deposited in court on February 27, 1968, the complaint having been filed on April 26, 1966, and the matter was heard by the commissioners. The property owner offered testimony in the amount of $26,000 and the State offered testimony in the amount of $2,100.

The Commissioners made an award in the sum of $4,000 and it was recommended that the Commissioners' award be approved.

119 ✓**Right of Way - Route 78**

There is presented herein the matter of a commission award entered against the State in the condemnation of property on Route 78, Section 4A, parcels 48 & 48B, in the Township of Bernards, owned by Andrew J. Hompesch.

At the hearing before commissioners the property owner's expert offered testimony in the amount of $40,399. The State offered testimony in the amount of $23,600. The Complaint and Declaration of Taking were filed on March 8, 1967, and $13,800 was deposited into court on that same day. The report of commissioners was in the amount of $25,865.

A review of the trial attorney's report indicates that the value adduced before the commissioners was $23,600 while the latest approved fair market value is $13,800.

In view of the fact that the figure before the commissioners was not in the amount of the fair market value, it is recommended that the appeal heretofore taken be approved. **(July 1, 1970)**

42 There is presented negotiated purchase agreement on Route 287 (1953), Section 10, Federal Aid Project I-287-2-(14), From Route 24 to Route 10.

Parcels 225H, 231 plus remnant to be acquired	Morristown and Erie Railroad Company, a Railroad Corporation Of New Jersey	Consideration	$7,600.
			100.
		Total Consideration conveyance of Parcel X232B	$7,700. plus

The parcel having been appraised and the Reviewer's registered Fair Market Value Determination is $7,600 for Parcels 225H and 231 and the value of the damaged remnant is $100 making a total of $7,700.

Parcel X232B has been appraised and the Reviewer's registered Fair Market Value Determination is $4,300. It is the opinion of the Engineering Division and supported by the State Utility Engineer, Joseph Schumacher, in his report of May 18, 1969 that if the State were to reimburse the owner for the relocation of trackage, made necessary if the owner did not have the excess parcel available, the cost would be approximately $15,000. If Parcel X232B is used for the railroad relocation, the railroad relocation cost would be reduced approximately $5,000. In view of the above, both the Engineering Division and the Right of Way Division concur that this settlement is in the best interest of the State and approval is recommended.

The Commissioner of the Department of Transportation does hereby determine that Parcel X232B is no longer required in the improvement, betterment, or maintenance of any State highway. (July 10, 1970)

Right of Way - Route 23

43 There is presented again the matter of acquisition of property on Route 23 (1953), Sections 5 & 6, from Canistear Road to Union Valley Road. Condemnation proceedings were previously authorized on January 18, 1968 at which time the owner refused to negotiate. There has been no complaint filed and no court deposit made in this case.

Continued negotiations have resulted in the execution of an agreement as follows:

Parcels 39A, 39B, 39C, 39D, R39E, 39F, 39G, 39H, 39J, 39K, 39L, 39M, 39N, 39P, 39R, 39S, 39T, E39U, E39W, 58A, 1A, 1B, 1C, 1D, 1E, 1F, 1G, & E1H	City of Newark	Consideration $245,000.

These parcels have been appraised and the Reviewer's registered Fair Market Value Determination is $213,250. The variance is not substantial considering the fact that this is a package settlement involving many parcels that were part of the City of Newark's reservoir watershed holdings and also if this proceeded to a hearing, the value of these parcels could be contested being that they are separated by various roadways, therefore, in view of the above this agreement would appear to be in the public interest, approval is recommended.
It is further recommended that condemnation proceedings previously be rescinded.
(July 9, 1970) AGREEMENTS SIGNED & RETURNED AUG - 8 1970

Right of Way - Route FAI 104-2-(4)

Belikove, h/w Herbert Pargot & Miriam Pargot, h/w All Heirs of the Estate of Meyer Karkus (deceased)	Consideration $300.

The parcel has been reappraised and the Reviewer's Reregistered Fair Market Value Determination is $100. The variance not being substantial, it is recommended that this agreement be approved and that the condemnation proceedings previously authorized on June 5, 1961 be discontinued.

Further authority is requested to withdraw the deposit of $20. heretofore made into the Superior Court under Declaration of Taking. (July 8, 1970)

Right of Way - Route 295

45 There is again presented the matter of acquisition of property on Route 295 (1953), Section 4, Federal-aid Project I-295-2-(30), Mount Holly-Burlington Road to Florence-Columbus Road, Parcel 19, Andrew T. Loyer and Catherine B. Loyer, h/w. Condemnation proceedings were previously authorized on February 5, 1968, at which time the State's suggested settlement of $18,500 was offered to and refused by the owners whose demand of $27,000 was considered excessive.

Continued negotiations have resulted in the execution of an agreement as follows:

Parcel 19	Andrew T. Loyer and wife	Consideration	$18,500
	Less allowance to State for owners' retention and removal of one-story dwelling . . .		500
	Net Cash Consideration		$18,000

The parcel having been appraised, the Reviewer's Registered Fair Market Value Determination being $18,500, the retention estimate being $500, the Net Bonus Additive being $5,000, it is recommended that this agreement be appro ed and that the condemnation proceedings previously authorized on February 5, 1968, be discontinued.

Further authority is requested to withdraw the deposit of $18,500 heretofore made into the Superior Court under Declaration of Taking. **(July 8, 1970)**

Right of Way - Route 440 Freeway

46 There is presented again the matter of acquisition of property on Route 440 Freeway, Section 1, Federal-aid Project F-209-(2), New Jersey Turnpike to Route 35. Condemnation proceedings were previously authorized on June 27, 1969, at which time the owner was demanding $196,000.

Continued negotiations have resulted in the execution of an agreement as follows:

Parcel 243	A.P. Green Refractories Co., a Corp. of the State of Delaware with its principal office at Mexico, Missouri	Consideration	$160,000 Including the court deposit of $125,000 previously withdrawn by the seller.

This parcel has been appraised and the Reviewer's re-registered Fair Market Value determination is $158,000. The variance not being substantial, the agreement would appear in the public interest and approval is recommended.

It is recommended that condemnation proceedings previously authorized be discontinued. Further authority is requested to make payment of the sum of $35,000 representing the difference between the consideration provided for in the agreement and the deposit withdrawn from Court. **(July 8, 1970)**

The net cash consideration was in the sum of $800 which represents an administrative settlement over the State's fair market value determination of $700.

Our Title Bureau has now advised us that the deed of conveyance was to be taken only in the name of Leo Palmonari. Mr. Tusch refuses to cooperate and states that he has an interest in this property. Mr. Palmonari, after having spoken with Richard Simon informed our Title Bureau that he could not clear his title.

There is presented again the matter of acquisition of property on Route 21F, Section 4, Federal-aid Project U-126-(18), From Route 3 to Monroe Street. Condemnation proceedings were previously authorized, as the owner rejected the suggested settlement, but stated no demand.

Subsequently, the appraisals were updated to the complaint date. Continued negotiations have resulted in the execution of an agreement as follows:

Route 260	Sanitary Engineering & Supply, Inc. including $35,250. previously withdrawn from Court	Consideration $40,000.

This parcel has been appraised and the Reviewer's registered Fair Market Value determination is $35,250. The variance is not substantial considering the fact that the Commissioners rendered an award of $42,100. and if this proceeded to a jury trial a judgement could not be achieved for less than the proposed settlement including all claims against the State. The agreement therefore would appear to be in the public interest and approval is recommended.

Authority is requested to make payment of $4,750., representing the difference between the consideration provided for in the agreement and the deposit withdrawn from the Court.

It is also recommended that condemnation proceedings previously authorized be discontinued.

The improvements on this property were demolished on June 9, 1970 by the contractor in the performance of his work. (July 16, 1970)

Subsequently, the appraisals were updated to the date of complaint, at which time the State's Reregistered Fair Market Value Determination of $3,300 was offered to and refused by the owners whose demand of $10,000 was considered excessive. Continued negotiations have resulted in the execution of an agreement as follows;

Parcel 24	Felton L. Patton and Lillian Ann Patton, h/w	Consideration $4,300

The parcel was reappraised and the Reviewer's Reregistered Fair Market Value Determination is $3,300. The variance is not substantial considering the fact that entry was made in 1967, and since the case is over four years old there would be legal costs. The proposed settlement includes all claims against the State and would appear to be in the public interest. It is recommended that this agreement be approved and that the condemnation proceedings previously authorized on April 22, 1966 be discontinued.

Further authority is requested to withdraw the deposit of $3,000 heretofore made into the Superior Court under Declaration of Taking.**(July 21, 1970)**

Parcel 5 — Service Oil Company (A New Jersey Corporation) — Consideration $47,000

The parcel was reappraised and the Reviewer's Reregistered Fair Market Value Determination is $47,000. It is recommended that this agreement be approved and that the condemnation proceedings previously authorized on December 15, 1969 be discontinued.

This parcel was appraised and the Reviewer's registered Fair Market Value determination is $2,500.

Should, prior to the ultimate fixing of compensation, any provisions or proceedings relating to the acquisition of this property delay the taking of possession and use thereof by the Department of Transportation, authority is requested to then file a declaration of taking and to deposit with the court $2,500. Right of Way - Route 3

There is presented the matter of the Commissioners' award in the condemnation of property on Route 3, Section 3, Parcel 87A, in the Borough of Rutherford, owned by Van Winkle & Liggett, a corporation of New Jersey, et al.

At the hearing before the Commissioners', which was held on May 25, 1970, an award of $573,500.00 was granted. Fair Market Value was reregistered in the amount of $518,000.00 on May 20, 1970. The owner's witness testified to $889,500.00. The State's witness testified to $518,000.00 for the total taking of an unimproved parcel. There was a deposit paid in Court in the amount of $340,450.00 on December 1, 1969. The Complaint was filed December 3, 1969.

The State was represented by Fee Attorney Harold Lasser.

It is recommended that the award in the amount of $573,500.00 be approved and payment in the sum of $233,050.00, being the amount over and above the deposit in Court, be paid together with lawful interest as computed by the Bureau of Titles.

No appeal is recommended since the award is not excessive and experience with juries in Bergen County involving lands along Route 3 where values have gone up by leaps and bounds would indicate that a jury trial would at least equal if not exceed the commission award.(July 17, 1970)

After consultation with the Right of Way Division a consent award of $5,500.00 was entered. Fair Market Value was reregistered in the amount of $5,000.00 on April 30, 1970. There was no testimony offered on behalf of the State nor the property owners due to the discussions involving the settlement. There was a deposit paid into Court in the amount of $4,500.00 on September 19, 1969.

The State was represented by Fee Attorney Albert L. Levy.

The consent award is fair and reasonable; not substantially in excess of the registered Fair Market Value and had the matter proceeded to a Commission Hearing the award would most likely have equaled if not exceeded the amount of the settlement.

It is recommended that the defendants be paid the additional sum of $1,000.00 representing the difference between the deposit and the consent award together with interest thereon from September 19, 1969, the date of the deposit, to date of payment.(July 17, 1970)

The State was not prepared to testify concerning any damages to Ramy Realty Inc, a corporation which was not a party to the complaint but which became a party by order of the Court.

The State was represented by Fee Attorney Laurence Semel.

It is recommended that these two awards be appealed, the one in favor of Orenstein as being excessive, and the othere in favor of Ramy Realty Inc., as an illegal and also because excessive.(July 17, 1970)

There is presented here the matter of the appeal from an award of Commissioners in the amount of $2,500.00, in the condemnation of property on Route 36, Section 2, Parcel ER109 in the Township of Middletown, owned by Telfair Byrne, et al.

Prior to the jury trial and after consultation with the Legal Division a consent judgment in the amount of $2,100.00 was entered against the State. Fair Market Value was registered in the amount of $550.00.

Approval of the consent judgment in the amount of $2,100.00 is recommended since it is slightly in excess of the State's Fair Market value; had the matter proceeded to a Jury Trial the verdict would have equaled or exceeded the amount of the settlement. Since the amount is fair and reasonable approval of the judgment is therefore recommended as in the public interest.

The State was represented by Fee Attorney Richard L. Bonello.

110 There is presented again the matter of the commission award entered against the State in the condemnation of property on Route 287, Section 8, Parcel 17B owned by Margaret Clark.

At the hearing before commissioners the owners presented no testimony as to value except to submit several sales. The State offered testimony in the amount of $2,200.00. Fair Market Value was established in the amount of $2,200.00. The commissioners awarded $3,000.00. There was a deposit of $1,700.00 made into Court on March 28, 1967.

An appeal was taken from the commissioners' award and prior to trial it was the opinion that it would be in the best interest of the State that the appeal be discontinued and the commissioners' award be approved.

On February 2, 1969 commission action was entered approving the payment of the commissioners' award in the sum of $3,000.00 without interest, less the sum of $1,700.00 paid into Court, and the owner refused to accept the award without interest.

In view of the fact that the amount of interest is miniscule, it is recommended that the commission action of February 2, 1969 be rescinded and that the commissioners' report be approved and that payment of $1,300.00, which is in excess of $1,700.00 deposited into Court on March 28, 1967 be made, plus interest at the rate of 6% on the sum of $1,300.00 from the date of deposit to the date of payment. **(July 17, 1970)**

Right of Way - Route 287

There is presented here the matter of the Commissioners' award in the condemnation of property on Route 287, Section 8, Parcel 31B, in the Township of Harding, owned by Tempe Wick Co., a corporation of New Jersey, et al.

After consultation with the Right of Way Division a consent award of $7,900.00 was entered. Fair Market Value was reregistered in the amount of $7,900.00 on April 15, 1968. There was no testimony offered on behalf of the State nor the property owners due to the discussions involving the settlement. There was a deposit paid into Court in the amount of $3,500.00 on April 18, 1967.

The State was represented by Fee Attorney Edward D. McKirdy.

The consent award is fair and reasonable; not substantially in excess of the registered Fair Market Value and had the matter proceeded to a Commission Hearing the award would most likely have equaled if not exceeded the amount of the settlement.

It is recommended that the defendants be paid the additional sum of $4,400.00 representing the difference between the deposit and the consent award together with interest thereon from April 18, 1967, the date of the deposit, to date of payment. (July 17, 1970)

Hynson. A purchase agreement in the sum of $1,700 was approved by the Commissioner on February 6, 1967.

Our Title Bureau now advises that they have been unable to close title in this matter due to the fact that there are many outstanding liens against the property consisting of a mortgage, an institutional lien, tax sale certificate, and two open judgements of record; all of which far exceed the consideration of $1,700 previously agreed to.

Our Title Bureau recommends that the agreement of January 18, 1967 be rescinded and authority is hereby requested for that purpose. Authority is further requested to institute condemnation proceedings for the acquisition of this parcel in fee simple subject to any public utilities existing in the premises. Prior to the ultimate fixing of compensation should any provisions or proceedings relating to the acquisition of this property delay the taking of possession and use thereof by the Department of Transportation, authority is requested to file a declaration of taking and to deposit the registered fair market value of $1,700 in the Superior Court.

A negotiated purchase agreement in the sum of $1,800 was approved by the Commissioner on June 24, 1970.

Subsequent to that date, our Title Bureau advised us that there are numerous tax liens against this property which the owner is unable to satisfy. Our Title Bureau recommends that condemnation be authorized, therefore, to acquire the parcel. Authority is requested to rescind the commission action of June 24, 1970 and the purchase agreement in the sum of $1,800 and that condemnation proceedings in fee simple be authorized subject to any public utilities existing in the premises.

Prior to the ultimate fixing of compensation, should any provision or proceedings relating to the acquisition of this property delay the taking of possession and use thereof by the Department of Transportation, authority is requested to then file a Declaration of Taking and to deposit in the Superior Court the State's registered fair market value of $1,800.

On June 5, 1970 the Commissioner approved a negotiated purchase agreement for the above captioned parcel plus the remnant in the total consideration of $4,200.00. Subsequent to that date, our Title Bureau attempted to close title; but they have advised that the owner is unable to convey marketable title inasmuch as they are unable to pay off a mortgage against this property which exceeds the consideration which they had anticipated receiving from the State. The down payment has not been made.

Our Title Bureau recommends that the commission action of June 5, 1970 and the agreement in the sum of $4,200.00 be rescinded and that condemnation proceedings for the acquisition of this parcel and remnant be instituted in fee simple subject to any public utilities existing in the premises. Accordingly, authority is requested to institute condemnation proceedings for this parcel plus remnant.

118 There is presented here the matter of the commission award entered against the State in the condemnation of property on Route 24F, Section 12, Parcel E199B owned by Margaret Riccuito.

At the hearing before the commissioners the State stipulated fair market value in the amount of $500. The property owner testified as to damages which resulted during the construction work for this improvement. Fair market value was established in the amount of $500 on May 24, 1970. Commissioners returned an award in the amount of $750.

It is therefore recommended that the commissioners' award in the sum of $750.00 be approved and that payment be made of the sum of $550.00 which is the sum in excess of the sum deposited, together with interest at 6% on $750.00 from September 9, 1965, the date of entry, to August 31, 1967 the date of deposit and on the sum of $550.00 from August 31, 1967 to date of payment, to be computed by the Title Bureau. There is presented here the matter of the Commissioners' award in the condemnation of property on Route 21F, Section 4, Parcel 263, in the City of Passaic owned by Franciszka Szwed and Joseph Szwed, her husband, et als.

Prior to the hearing, and after consultation with the Supervisor of the Bureau of Acquisitions, the matter was settled by the entry of a consent award in the amount of $3,000.00. Fair Market Value was registered in the amount of $2,500.00. This is a partial taking of an improved parcel. There was a deposit paid into Court in the amount of $1,500.00 on April 29, 1969.

Approval of this consent award is recommended in view of the partial taking of the rear portion of property upon which is located a six family dwelling necessitating a conflict of testimony as to consequential damages to the remainder and on the basis that recent awards and judgments in this county reflect that had the matter been contested the ultimate award would have exceeded the amount of the settlement and also since the amount of the consent award is only slightly in excess of the State's Fair Market Value it is in the public interest.

The State was represented by Fee Attorney Laurence Semel.

At the trial before the Court and a jury the owner was prepared to offer testimony in the amount of $13,000.00. The State was prepared to offer testimony in the amount of $3,800.00 for the partial taking of an unimproved parcel. Fair Market Value was registered in the amount of $3,800.00. There was no deposit paid into Court. The Complaint was filed July 31, 1969.

The State was represented by Fee Attorney Richard Bonello.

Due to the fact that the State was not prepared to offer testimony as to additional damages to the remainder, after consultation with the Legal Division a consent judgment in the sum of $6,800.00 to include all accrued interest to the date of the judgment was entered.

It is recommended that the consent judgment in the lump sum of $6,800.00 be approved and be paid as not excessive but fair and reasonable; it substantially reduces the award; and is in the best interest of the State. Had the case proceeded to trial experience with juries in Ocean County has proved that a verdict would have equaled if not exceeded the amount of the consent judgment.

There is presented the matter of the payment of interest on a consent judgment from the date of entry of the judgment, November 19, 1969 to date of payment on an appeal from an award of commissioners in the condemnation of property on Route 280, Section 3, Parcel 112 in the Township of West Orange owned by Robert J. Weiman and Jacob L. Kram, Trustees, et als.

The consent judgment was in the amount of $181,480.00 which included interest accrued to November 19, 1969. There was a deposit paid into Court on September 7, 1968 in the sum of $115,500.00. The property owner is entitled to interest on $65,980.00, the difference between the consent judgment and the deposit, at 6% from November 19, 1969 to date of payment.

Authorization is requested that payment in the sum of $65,980.00, being the amount over and above the deposit paid into Court plus interest at 6% from November 19, 1969 to date of payment be paid. This is a supplementary Department Action. (August 3, 1970)

There is presented the matter of the consent judgment on an appeal from a commissioners award in the condemnation of property on Route 440, Section 2, Parcel 19A, 19B, in the City of Jersey City, owned by Anfor Realty Corporation, et als.

At the hearing before the Commissioners' an award of $67,000.00 was granted. Fair Market Value was registered in the amount of $52,230.00. The owner's witness testified to $241,000.00. The State's expert testified to $52,200.00 for the partial taking of an improved parcel. There was a deposit paid in the Court in the amount of $38,000.00 on July 28, 1967. The State entered into possession on July 26, 1965.

The State was represented by Fee Attorney Donald C. Ohnegian.

Approval is recommended of the consent judgment in the sum of $63,000.00 plus interest at 6 percent thereon from July 26, 1965, the date of possession to July 27, 1967 the date of the deposit into Court of $38,000.00 ($7,560.00), plus interest at 6 percent on the balance of $25,000.00 from July 27, 1967 to June 23, 1970($4,358.00) because the settlement reduces the award of the commissioners; also since this case is more than two years old the costs of prosecuting the appeal including counsel fees and witness fees must be considered as a factor and also because experience with juries in Hudson County would indicate a strong likelihood that a jury verdict would have at least equaled, if not exceeded, the amount of the consent judgment. (August 3, 1970)

Right of Way - Route McGuire A. F. B. Access Road

109

There is presented here the matter of the award of condemnation commissioners entered against the State in the condemnation of property known as the McGuire A. F. B., Access Road, Parcel R9A & 9B, owned by Elsie T. Rogers.

At the hearing before the commissioners the owner offered testimony in the amount of $4246.00 and the State offered testimony in the amount of $1800.00. Fair Market Value was established in the amount of $1800.00. The complaint was filed on November 12, 1967, and a deposit made on January 30, 1967 in the amount of $1100.00. The award was in the amount of $2750.00.

The State was represented by Fee Attorney John A. Hila.

It is recommended that the award in the amount of $2750.00 be approved, since it does not grossly exceed the amount of the State's Fair Market Value and the costs of an appeal would exceed the difference between the Fair Market Value and the award. It is further recommended that payment in the sum of $1650.00, being the amount over and above the deposit in court, be paid together with lawful interest as computed by the Bureau of Titles. Federal Project No. N.J-I-80-2(23)26

On July 7, 1967, the Commissioner of the Department of Transportation approved final payment for subject contract to Yonkers Contracting Co., Inc., Yonkers, New York. The payment was authorized in accordance with the as-built quantities, deducting therefrom the amount of $871.75, representing the value of pavement thickness deficiencies, and also deducting the sum of $73,224.80 which represented liquidated damages for one hundred six (106) calendar days' overrun on time of completion of the work for the period July 18, 1963 to November 1, 1963.

The contractor subsequently instituted a claim before the Joint Legislative Appropriations Committee, Sub-Committee on Claims, to recover the liquidated damages alleged to be arbitrarily withheld. Senate 813 (1969) provided for an award to the contractor in the sum of $73,224.80. This was vetoed by the Governor. Again this matter was presented before the same committee, and Senate 801 (1970) also contained a provision for an award in the same amount. This was also vetoed by the Governor.

Subsequent negotiations between the claimant and the Governor's Office have resulted in an agreement to a payment of $63,000.00 as settlement in full for all claims of any nature whatsoever connected with or pertaining to the subject project. This agreement of payment results in the amount of $11,096.55 being retained by the Department of Transportation, which retainage is considered by the negotiators as a fair and equitable representation of liquidated damages for overrun of the completion of the project and for all other outstanding claims which the Department has against the contractor.

In compliance with the agreed settlement, it is herein recommended that payment be made for the claim to Yonkers Contracting Co., Inc., 969 Midland Avenue, Yonkers, New York, 10704, represented by K. L. Estabrook, of Lindabury, McCormick, and Estabrook, 28 Prince Street, Elizabeth, New Jersey.

The Director of Accounting, Department of Transportation, is hereby directed to seek authority from the Director of the Budget, Department of Treasury, for payment from State matching funds (90-10) as a non-participating item. **(August 7, 1970)**

There was a deposit in the amount of $19,100.00 paid into Court on September 19, 1968. The Complaint was filed September 19, 1968.

The State was represented by Fee Attorney Richard Bonello.

Since the award exceeds the State's appraisal and testimony by $23,100.00, it is recommended that appeal be taken and a protective appeal has been filed. (August 7, 1970)

There is presented the matter of the consent award in the condemnation of property on Route 20F, Section 2, Parcel 14A in the City of Clifton owned by William H. Ploch, et al.

Prior to the hearing on June 5, 1970 after consultation with the Legal Division, a consent award of $33,000.00 to include all accrued interest was granted. Fair Market Value was registered August 8, 1968 in the amount of $30,600.00. The owners did not testify. The State did not testify for the partial taking of an improved parcel. There is presented the matter of the appeal by the State from an award of Commissioners in the amount of $15,000.00 in the condemnation of property on Route 35, Section 3, Parcel 27, in the Borough of Point Pleasant Beach, owned by Tides Realty Corporation, et al.

After consultation with the Right of Way Division a settlement in the amount of $13,000.00 was entered. The owner's did not offer testimony. The State was represented by Fee Attorney Julius Cohn.

It is recommended that the settlement in the amount of $13,000.00 be approved as fair and reasonable, not excessive; it reduces the commission award and had the matter proceeded to a jury trial a verdict would most likely have equaled if not exceeded the amount of the commissioners award. It is therefore recommended that the settlement in the amount of $13,000.00 be paid together with lawful interest as computed by the Bureau of Titles.

131 There is again presented the matter of closing title with John G. Scarrillo and Lucille B. Scarrillo, his wife, pursuant to a contract between the Scarrillos and the Department of Transportation under which the Scarrillos delivered a deed to the State of New Jersey.

A down payment was made pursuant to the contract. Right of Way - Route 3

There is presented again the matter of acquisition of property on Route 3, Section 3, Federal-aid Project U-186-(18), Passaic River to Route 20, Parcels RT100A and RT100B, The Council in the Division of Resource Development of the Department of Conservation and Economic Development, in which condemnation proceedings were previously authorized on December 12, 1968, and on December 20, 1968 a complaint was filed.

Due to the meadowland riparian litigation and legislation, the affected properties were, in effect, unmarketable and legal direction resulted in condemnation being instituted as one massive suit covering the two parcels. All "claimants" as well as tenants and other interested parties totaling 92 were joined in the suit as defendants.

Subsequently, the Department of Environmental Protection (formerly the Department of Conservation and Economic Development) depicted a line it now claims as the limits of the riparian areas. While further litigation between many "claimants" and the Department of Environmental Protection is still pending, so as to judicially define the riparian tidal area limit, there remains the problem of permitting owners whose properties contained any fast land areas to withdraw deposits.

By an order dated May 29, 1970, Superior Court Judge Trautwein directed the Department of Transportation to revise the suit so as to condemn by area of each individual claimant. This involved approximately 31 new parcels.

The Department of Transportation complied and furnished both the claimants and Judge Trautwein with the new individual maps and has been in the process of making new appraisals so that new offers (if any) can be made for each parcel, and settlement failing, the prior complaint amended to cover the 31 separate parcels. Further pending the time required for this action, the Department of Transportation has furnished Judge Trautwein with a break-out of the State's court deposit so he can evaluate withdrawal applications. See James V. Hyde, Jr. letters to Judge Trautwein of June 8, 1970 and July 8, 1970.

Subsequently and pending the re-appraisals, it was learned that the original complaint maps omitted a mucking area required for the contractor to perform his work. This area involved almost all of the partial takings, and while not shown on the original map, is contained on the maps sent to all the claimants and Judge Trautwein in response to the aforementioned May 29th order. As a result, an injunction has been issued preventing the contractor from working in the mucking area of two properties, namely Peter Kero, et al and Bergen County Associates, until the complaints are amended.

In view of the fact that the requested amendments will affect other parcels as well on which injunctions will probably be sought, the matter is submitted with a request for authority that the Legal Division be instructed to make a motion before the court for an order to allow the State to amend the original complaint to coincide with the ownership maps requested by Judge Trautwein's order of May 29th, without the completion of the necessary re-appraisals at this time referred to in James V. Hyde, Jr.'s letters of June 8, 1970 and July 8, 1970, it being understood that after the new appraisals have been received and the fair market values registered, negotiations will be conducted in the regular manner in an effort to reach amicable settlements.

Condemnation proceedings were authorized for the acquisition of this parcel on May 2, 1966 because the owner's agent rejected the State's offer of $22,300. and refused to state a demand. A complaint was filed with the court on June 29, 1966 and a declaration of taking check in the amount of $22,300. was deposited. Subsequently, the owner withdrew the court deposit of $22,300. on December 21, 1966.

The subject parcel was revised to Parcel R133A on June 24, 1968. Subsequently, a court order dated October 24, 1968 was received requiring us to provide an additional drainage easement and a metes and bounds description.

According to our new procedures based on the 1968 Highway Act a displaced business located on a Federal-aid project is entitled to a payment for all actual reasonable moving expenses provided such payments are supported by receipted bills or other evidence of expenses incurred. The All-American Brush Mfg. Corp. is now applying for an additional $2,855 to compensate them for their actual relocation costs.

Authority is requested to pay the additional amount of $2,855 to the All-American Brush Mfg. Corp. as reimbursement for their actual moving costs based upon the executed certification and final bill which they submitted. (August 21, 1970)

The State's representative inspected the housing on July 30, 1970, and certified that the replacement housing is decent, safe and sanitary.

Legal Items

106 — Right of Way = Route 35

There is presented here the withdrawal of an appeal filed by the property owner from a commission award in the sum of $10,300.00 by a settlement whereby the property owner agreed to accept the said commission award in the condemnation of property on Route 35, Section 9, Parcel 76, in the Township of Raritan, owned by Sun Oil Company, a corporation of N. J., et al.

At the hearing before the Commissioners, which was held on October 30, 1969 and January 22, 1970, respectively, an award of $10,300.00 was granted. Fair Market Value was registered in the amount of $8,600.00. The owners offered testimony in the amount of $13,200.00. The State's expert offered testimony in the amount of $8,600.00 for the partial taking plus slope easement of an improved parcel. There was a deposit paid into Court in the amount of $1,380.00 on July 20, 1970.

The State was represented by Fee Attorney Gary Schwartz, Esq.

It is recommended that the award in the amount of $10,300.00 be approved and payment in the sum of $8,920.00, being the amount over and above the deposit in Court, be paid together with lawful interest as computed by the Bureau of Titles.

107 — Right of Way - Route 37

There is presented the matter of the commissioners' award in the condemnation of property on Route 37, Section 4A, Parcel R123, owned by Harriet I. Wolf and Parcel R124 owned by Baiamonte Bros, Inc., in the Township of Dover.

At the hearing before the commissioners, an award of $140,000.00 was granted. Prior to the hearing, over the State's objection, Parcel X123B was eliminated from the taking and, by consent, Parcels R123 and R124 were consolidated because Baiamonte Bros, Inc. had acquired title to R123(Wolf). Fair Market Value for R124 was $10,800.00. The Fair Market Value for Parcels R123 and X123B was $84,500.00. The State testified to a total of $55,000.00 for Parcels R123 and R124. The defendants' testified to $160,608.00 for both parcels.

The State was represented by fee attorney Julius Cohn, Esq.

Since the award exceeds the State's appraisal and testimony by $85,000.00 it is recommended that an appeal be taken and a protective appeal has been filed.

Approval is further requested for the filing of a new complaint in condemnation against Baiamonte Bros., Inc. for Parcels X123B and X124B, since the Court refused to permit the State to amend prior to jury trial to include these parcels. **(August 25, 1970)**

There is presented the matter of moving reimbursement for the Passaic School Number 12, which is a large Junior High School displaced by the construction of Route 21 Freeway, Section 4, Project: U-126-(18), Parcel 133 B and C.

The demolition of the School required that all personal property including desks, gym equipment, blackboards, office furniture and so forth, be relocated. In accordance with standard relocation procedures, two (2) estimates are required from the relocatee. If it develops that the estimates are in excess of $5,000.00 the State must obtain a third estimate. In accordance with this policy, we obtained the required estimate from Bekins Van and Storage Company. Although the estimate was the lower of the three (3) received, they were not able to perform the move at the required time, which necessitated the vacation of the building by July 1, 1970.

In view of the fact that the School Board is a public agency, and to avoid delay and contractors claims, it was necessary for the School Board to utilize the services of Dave Levine Inc., the mover, and to authorize overtime and Saturday and Sunday work. It is felt that the moving cost is not only reasonable and proper, but in the public interest.

Authority is requested to vary from the regular procedures and to reimburse the School Board for the amount expended to vacate in favor of the State, namely $12,827.00.

Attached is a detailed report dated August 3, 1970 covering all mentioned matters. (August 31, 1970)
